

Write to the Point II™:
Business Writing for Executives

Course Objective

In this 2-day intensive programme, participants will learn to employ professional business writing skills to produce high quality and effective business communications that will promote a professional image for the organization. This programme covers a range of business writing genres commonly encountered by executives. The aim is to produce all-rounded executives who are able to write and express themselves well.

Course Methodology

Sharing by the trainer takes up only 30% of total class time. The remaining class time will be utilized for individual and paired activities, coaching and peer evaluation. Participants will typically do written exercises after each key module is expounded.

Course Syllabus
